

Don't toil away alone hammering out your grant application...

GIVE YOURSELF AN EDGE

FREE Scientific and Editorial Review of Grant Applications

for **FACULTY** in the Schools of the Health Sciences

Have your grant application critically evaluated by scientists in the Office of Research, Health Sciences who have laboratory and faculty experience.

- ❖ Expert reviews of NIH-type grant applications for Research (R), Training (T), Career Development (K), Program Project/Center Grants (P), or Cooperative Agreement (U) mechanisms, among others (NSF, DOD/CDMRP, PCORI, etc.)
 - Scientific review of specific aims and study design
 - Grantsmanship advice
 - Editorial review for language and clarity
 - Review for consistency with funding announcement focus and funding agency priorities
- ❖ For Multi-investigator grant applications and research programs:
 - Individual projects reviewed for clarity, logical flow, and scientific validity
 - Applications edited for style and logistical consistency of projects/cores

For more information or to request assistance with a grant application, visit our website at www.oorhs.pitt.edu, or contact Dr. Jeremy Somers at somersj@pitt.edu (412) 648-2367
